Market Structure & Technology Expertise Electronic Trading, Equity Markets, Fixed-Income Markets, Regulation Location Global
Stay in Touch! [1] [1]

Kevin McPartland is the head of market structure and technology research. He has nearly 20 years of capital markets industry experience with deep expertise in market structure, regulation and technology impacting the fixed-income, FX and equity markets.

Prior to joining the Firm, Kevin was with BlackRock, where he was a Director in the Electronic Trading and Market Structure group. Prior to Blackrock, he was a Principal at TABB Group, where he founded and led the firm's fixed-income research practice. Kevin also spent time at J.P.Morgan, UBS and Deutsche Bank in varying capacities.

Kevin has presented at a wide range of industry conferences, is quoted regularly in the financial media and has provided live and taped commentary on various TV and radio outlets. In addition, he provided testimony discussing the Dodd-Frank Act in 2011 to the U.S. Senate’s Banking Committee and three times to the U.S. Commodities and Futures Trading Commission (CFTC), mostly recently in 2015.

Kevin earned a BS in Computer Science from Rensselaer Polytechnic Institute and is currently a member of the advisory board for the M.S. in Quantitative Finance and Risk Analytics program.
