Methodology:

Research is based on personal interviews conducted from November 2013 through February 2014 with 316 equity traders. The data in this report is based upon aggregated results from individuals participating in the study. Buy-side institutional investors were asked to provide quantitative and qualitative evaluations of the brokers they use for U.S. Equities as well as detailed information on important market trends like commission rates, commission allocation, fund performance, and number of brokers used.

business performance.

Our suite of analytics and insights encompass all key performance metrics and drivers: market share, revenue performance, client relationship share and quality, operational excellence, return on equity, behavioral drivers, and industry evolution.
